PEASANTS ARE ON BRINK OF STARVATION

Appeal to Charitable People of America.

TO MAKE LACE AND EMBROIDERY

Political Parties Struggling for Mastery in Russia—"Black Masses" Comprise 80 Per Cent of 140,000,000 People—Want to Depose Nicholas.

St. Petersburg, Dec. 13.—Although the government is making efforts to relieve the famine in the five provinces where the crops failed last summer, the work is being greatly embarrassed by the unsettled conditions, and already pitiful tales of distress are pouring in from remote districts.

Peasants and their families are starving, and private relief is being sent. Appeals are being sent out not only through Russia, but to foreign countries. The situation in the province of Orel is very acute and the marshals of the nobility have requested the Associated Press to make a particularly strong appeal to the charitable and humanity of the Americans, whose harvests have been so bountiful this year. They ask that donations should be sent to Alexander Alexandrovitch Stakovich, one of the prominent Liberal leaders of Eleta, government of Orloff, care of the Northern bank of that place. The committee is arranging to institute dining rooms and bakeries where the starving Moujiks and their families can be fed during the winter and also to arrange stations for the distribution of fodder for the horses and the cattle of the farmers, the death of which would be an untold calamity to them.

The women of the district have been put to work making lace and peasant embroidery by the sale of which it is hoped to increase the funds at the disposal of the committee.

In Orel province, especially the famine promises to be much more severe than that of 1891, when the American people so generously sent a ship load of wheat and corn to the starving.

While it is impossible in the present confusion to clearly outline the various political forces which are struggling for mastery in Russia, the foreign student of Russian affairs can, with profit, bear in mind the general party divisions as at present constituted. Perhaps first of all in the order of importance, is the party of reaction, not at court, but among the nobles who believe in the old regime and among the great mass of the peasantry, who still believe that all good flows from the "Little Father," and the church, and who continue extremely hostile to the "intelligencia," which is regarded as part of the machinery for their oppression.

The "black masses," the term by which the ignorant peasantry who comprise 80 per cent of Russia's 140,000,000 people, are known, can, at any time, turn the scale. The peasants may rise, burn and pillage and murder landlords, but there is no evidence that the allegiance of more than an infinitesmal fraction turned against the emperor. In skillful hands they, therefore, always will constitute an immense influence in favor of a counter-revolution. There are two parties in which the peasantry might eventually be impressed, and which might make up the extreme right, consisting of those who will never forgvie the emperor for abrogating his autocratic power. They talk of the necessity of deposing Nicholas and electing a new emperor. Prince Dolgorowki, of Moscow, one of the descendants of the rurika, is their avowed candidate.

One of these parties was organized last April by Baron George Rosen Lagenike, and others, who are in favor of sustaining the advocacy. The issue of the imperial manifesto, another party called the Holy Alliance, for national self-protection, was organized under the leadership of Count Bobrinski and M. Chermetieff. It summons all true sons of Holy Russia to battle for "the teachings of Christ, the emperor and the fatherland."

All the church heavy hearers of Moscow's 500 churches, who alone number 200,000, have been enrolled in its ranks.

These parties might eventually sustain a military dictartorship against the revolutionary forces.

Immediately to the left of this party of reaction might be placed the moderate conservatives, who support Count Witte in the introduction of a new regime. They comprise the conservative zemstvo elements under the leadership of Dmitri Shipoff, M. Gouchkoff and Michael Stakovich, and they have organized two parties called respectively the League of October Thirtieth and the party of Law and Order, with Re Novoe Vremya and the Slovo as their organs. Their platform calls for the realization of the reforms promised for the integrity of the empire and for a strong central government.

Now come the parties favoring the complete overthrow of the government—the Social Democrats, Radical Democrats, Social Revolutionaries and Anarchives. The former, by far the best organized, is in favor, first, of a Democratic republic, and the latter for the attainment of the dream of a regime of universal socialism. The radical Democrats form a connecting link with the Socialist Revolutionaries. Their programe includes Democratic republic, with a single parliamentary chamber, ministers elected from the majority of the various nationalities, full autonomy, the abrogation of all titles and ranks and the extension of the suffrage to the people.

The program of the anarchists is held a secret.

TOBACCO FACTORY DYNAMITED.

Houses and Passenger Coaches Damaged by the Shock.

Louisville, Ky., Dec. 13.—A special to the Evening Post from Elkton, Ky., says:

The tobacco factory here owned by Mrs. M. B. Penyck, and operated for the tobacco trust by the American Snuff company, was blown up by dynamite at 1:30 o'clock this morning.

There was no loss of life, but the damage to the factory is complete.

There was no insurance on the plant as the insurance had only a few days ago been cancelled owing to the policy and the excitement occasioned in this locality by the tactics of some of the members of the Dark Tobacco Growers' association.

The force of the explosion was heard for a long distance. Houses in the vicinity were damaged as were also the depot and four or five passenger cars standing on a siding.

The deed is thought to have been committed by parties friendly to the Dark Tobacco Growers' association, but the latter has severely condemned such actions.

TO EMBARK IN MINING.

Miners to Enter Business on a Co-Operative Basis.

Denver, Colo., Dec. 13.—The executive board of the Western Federation of Miners last night decided to submit a proposition to the fund of $1,000,000 with which to embark in the mining business on a co-operative basis.

The plan outlined is to have each member of the Federation to contribute $10. One of the benefits of the plan, the committee believes is to give employment to members of the union who are deprived of work by reason of the card system in use in Colorado and other states.

Underwriters Abandon Vessel.

Havana, Dec. 13.—The Elder-Dempster liner, Angola, which grounded hard on a coral bottom while entering the harbor in a heavy sea Sunday night, has been abandoned by the underwriters. The vessel was wrecked by the rocks which pierced her hull. There is 15 feet of water in the hold, and the wheat is swelling.

Philippine Governor in Washington.

Washington, Dec. 13.—Luke E. Wright, governor of the Philippines, arrived in Washington last night and was an early caller at the war department, where he had a conference with Secretary Taft concerning matters in the archipelago. He will be present at the opening of bids on the 15th instant for railroad construction in the islands.

WILL NOT ORDER A GENERAL STRIKE

Workmen's Council Rejected Proposition.

MEN UNPREPARED FOR CONFLICT

Arrest of Leaders Only of Local Importance and Did Not Furnish Cause for Concerted Action—To Prepare for an Armed Uprising.

St. Petersburg, Monday, Dec. 11, via Eydtkuhnen, East Prussia, Dec. 12.—Caution having prevailed over the fury aroused by the arrest of the strike leaders the workmen's council has rejected the proposition to order a general strike at present as untimely and has decided that the workmen should bide their time patiently until all the preparations are complete.

The council realized he weakness and unpreparedness of the workmen for a general conflict and had been informed that the railroad men had already decided against a strike.

Decline to Accept Challenge.

The remnants of the labor and Socialist delegates held a secret meeting in the hall of the economic society at an early hour this morning declined to accept the challenge of the government and adopted a resolution against the arrest of M. Krustaleff, the president of the executive committee of the workmen's council and the other St. Petersburg leaders which it was pointed out was only of local importance and did not furnish cause for a general strike. The resolution, however, declared that it was the sacred duty of all workmen to carry on the work begun by the arrested leaders of equipping and preparing the fighting legions of workmen for an armed uprising, adding:

"In the name of the future proletariat we refuse to make an active protest at present."

"A triumvirate hereafter will guide the workmen's council. The government on Saturday arrested the most brainy men of the organization and the remaining delegates not having sufficient confidence in any of their number chose an executive committee of three to guide the policy of the council until events bring forth a worthy successor of M. Krustaleff. The sentiment of the workmen's delegates which was extremely depressed has been somewhat raised by the receipt of a dispatch from Moscow claiming that the revolutionary propaganda has finally taken root among the Cossacks, the last hope of the reaction. The third squadron of the first regiment of Don Cossacks is reported to have held a meeting and to have drawn up service demands claiming that the men are fed like dogs and shabbily clothed. The government officers were forced to deprive the soldiers of their rifles and lances. This is the first sign of dissatisfaction on the part of the Cossacks."

Telegraph Situation Ameliorating.

The post and Telegraph situation is steadyily ameliorating though no wires are working to points outside of Russia, and telegraphic communication with the interior is very faulty. Many of the striking operators have lost heart owing to the news from Moscow that the leaders when arrested were indulging in an expensive supper at a popular Moscow restaurant in company with women strikers and spending the strike funds lavishly on champagne and expensive cigars and liquors.

Negro Woman Kills Another.

Americus, Ga., Dec. 13.—In a free fight on Jackson street participated in by four negro women, Stella Williams shot Ellen Black dead, her brains pouring out on the sidewalk. Three women named Black attacked the Williams woman, one slicing her with a razor, the tragedy resulting.

Child Killed by Trolley Car.

Atlanta, Dec. 13.—Ida Pennington, the 5-year-old daughter of W. W. Pennington, was run over by a trolley car near her father's home Monday afternoon and her injuries were so serious that she died at the Grady hospital.

LIGHTSHIP'S CREW SAVED.

Vessel Had Been Leaking in a Compartment Since Sunday.

New Bedford, Mass., Dec. 13.—Persistent bailing by hand for 24 hours and with the aid of wireless telegraphy that brought help at last, saved the lives yesterday of the thirteen men on board the Nantucket South Shoal relief lightship No. 58, but the vessel went down a few minutes after the crew had tumbled over the side into their lifeboat.

Six hours Monday the light house tender Azalea, which had answered the call for help, lay alongside the water logged lightship, unable to render assistance, owing to the awful seas raging. At length the wind moderated, and then an attempt was made to tow the lightship to New Bedford. But after 18 miles had been covered, the water which had been coming in steadily through a leak of one of the compartments since early Sunday morning began to gain on the already exhausted crew, and the distress signal was hoisted.

Without stopping for any of their belongings, the crew launched their boat and jumped into it. They had rowed only a short distance when the lightship plunged beneath the waves.

The men were taken on the Azalea, which had steamed back to the rescue and every one was brought here safe and sound early today.

Retired Rear Admiral Dead.

New York, Dec. 13.—Rear Admiral Abraham Bruin Hasbroueck Lillie, U. S. N., retired, died at his home yesterday. He was born in this city, having been graduated from the naval academy, was assigned to the North Atlantic station where he served until 1867. He was promoted to captain on March 3, 1901, and served as commandant of the United States naval station at Key West until 1902. On March 3, 1903, he was retired with the rank of rear admiral.

Tobacco Company Is Sustained.

New York, Dec. 13.—The right of the American Tobacco company to refuse to sell to small retailers if they choose to do so was sustained by a decision rendered yesterday by Justice E. Marean in the supreme court in Brooklyn. E. Locker & Co., retailers, had brought a suit against the company demanding $100,000 for damages, which they alleged, had resulted from the American Tobacco company's refusal to do business with them.

Body of Suicide Interred.

New York, Dec. 13.—The body of Robert D. Ballentine, who killed himself in his mother's home at Newark, last Saturday night, was buried in the family plot in Mount Pleasant cemetery today. Relatives yesterday discredited blackmail and other stories which have been circulated as reasons which may have prompted him to end his life.

Alleged Wife Slayer Respited.

Newton, Ga., Dec. 13.—Milton Brown, the alleged wife murderer who was sentenced to hang here Monday has been respited by the governor for a time. It is thought that he will not hang at all, but his sentence will be commuted to imprisonment for life.

Burned to Death.

Waco., Tex., Dec. 13.—William T. Woodward, a prominent and wealthy cotton man was burned to death in his office today. He had kindled a fire and it is believed he fell asleep. The fire ignited the furniture and Woodward was burned and blistered beyond recognition.

Poet-Novelist Married

London, Dec. 13.—It is learned that Theodore Watts-Dunton, the poet-novelist, and to whom Rosetti dedicated his "Ballads and Sonnets," was married on Oct. 29 to Clara R. Rich, whom he has known since her childhood, and who has been his amanuensis for 15 years.

Reports Were Considered.

Memphis, Tenn., Dec. 13.—Reports of officers were considered at today's session of the Brotherhood of Painters and Decorators' convention. The report of the secretary-treasurer, J. G. Shemp, shows the organization to be on the forward movement.

MIDSHIPMAN GUILTY ON TWO CHARGES

Violated Articles for Government of Navy.

PUBLIC REPRIMAND IS ORDERED

Decision In Annapolis Courtmartial Case Confines the Young Man to the Limits of the Naval Academy for Period of One Year.

Washington, Dec. 13.—Midshipman Minor Meriwether, Jr., who was tried by courtmartial for causing the death of Midshipman Branch, has been sentenced to confinement to the limits of the naval academy for a period of one year, and to be publicly reprimanded by the secretary of the navy.

Secretary Bonaparte has ordered that the sentence be carried out, but that so much of the penalty as would debar the accused from serving on any practice ship attached to the academy be remitted.

Representative Broussard of Louisiana, who had a conference with the secretary this morning regarding the case, after reading the findings, announced that he was entirely satisfied with them.

Midshipman Meriwether was acquitted of the charge of manslaughter and found guilty of the the other two charges, namely, violation of the third clause of the eighth article for the government of the navy, which prohibits midshipmen from engaging in fisticuffs and conduct to the prejudice of good order and discipline.

WILL FILED FOR PROBATE.

Wealthy Woman Gave Part of Her Estate to Southerners.

New York, Dec. 13—The will of Sarah H. Walker, who died on Nov. 23, was filed yesterday for probate. It leaves her friend, Captain H. Evans, a house in Charleston, S. C., for his life; on his death it is to go to the city hospital of Charleston "for use of white people only." A lot in Montgomery, Ala., also goes to the hospital there to found a surgical ward for white people only. Besides this, the Montgomery Hospital is to have $1,500, and Alfred S. Malcolmson and Dr. Thomas M. Aken, her son, are to have $25,000 each, and divide the residue.

Miss Walker was a divorced woman, who had resumed her maiden name. Her former husband's name was Paul.

Several Injured in Wreck.

Nashville, Dec. 13.—A Littleton, Ala., dispatch says that an extra train consisting of an engine and caboose, on the Southern railway, eastbound, jumped the track at 3 o'clock this morning and went down an embankment near this place. The casualities are Engineer Arthur McElvery, fatally hurt; F. S. Bruce, fireman, dangerously injured; J. M. Green, brakeman, C. L. Fitzsimons, flagman, and Fred McDougall, conductor, seriously injured. The engine and caboose were badly damaged.

Body of Senator Mitchell Interred.

Portland, Ore., Dec. 13.—The last rites to the memory of the late Senator John Mitchell were said today. At 10 o'clock the casket was taken to the council chamber at the city hall, where at 12:30 the public was admitted. At 1 o'clock the casket was removed to the Congregational church, where the services were held. Following these the body was interred in the River View cemetery.

Bank Teller Disappeared.

Toronto, Ont., Dec. 13.—E. S. Banwell, teller of the local branch of the Crown bank, has disappeared. An examination of his books yesterday is alleged to have shown a shortage.

Madame Rejane Divorced.

Paris, Dec. 13.—M. Porell, manager of the Vanderbilt theater, was granted a divorce from his wife, Madame Rejane, the well-known French actress.

CONTRACT HAS BEEN LET FOR THE NEW UNIVERSITY BUILDINGS

Board of Control Awards Contract to W. T. Hadlow Company.

BUILDINGS TO BE HANDSOME

Must Be Completed by August 1 and September 1, 1906.

After a lengthy session Tuesday, which began at 9 o'clock in the morning, the State Board of Control has finished its labors here, and adjourned at 1 o'clock Wednesday morning, after having let the contract for two university buildings to W. T. Hadlow Company, Jacksonville.

There were present at this meeting of the board Hon. N. P. Bryan, chairman, Jacksonville; A. L. Brown of Ocala, P. K. Yonge of Pensacola, M. B. King of Arcadia and J. G. Kellum of Tallahassee, secretary. Nat Adams of White Springs was the only member of the board not present, he being detained on account of urgent business.

Bids Considered.

The board spent a greater part of the time in considering bids for the erection of the buildings, there being a great many. After due and careful consideration the contract was let to the Hadlow Company, that firm being agreed upon as the lowest and best bidder.

What Contract Provides.

The contract calls for one college building and one dormitory building, and the material to be used will be brick and McCarroll stone, which will make a handsome effect. The college building will be 200x60, three stories, which will afford ample room for the next ten years. The dormitory, specifications provide for a building 240x60, three stories high, which is calculated to provide accommodation for the matrons and 150 students.

The contract provides that the college building must be completed by August 1 and the dormitory by September 1, 1906, and the contractors promise to begin work as soon as possible.

Attorney W. W. Hampton of this city represented Representative W. H. Reed of Polk and McCarroll Stone, and of Commodious Dimensions and Modern Architecture. Must Be Completed by August 1, 1906.

Board Selects Location.

The board visited the University grounds and were well pleased with the same. They made a thorough inspection and selected the location upon which the buildings for which the contract has been awarded should be erected. A surveyor will be sent here within the next few days.

There are other buildings, such as cottages, barns, etc., to be erected at the same time the college and dormitory are going up, but these were not included in this contract. Bids will be opened and considered and the contract probably let at the next session of the board, which adjourned to meet in Jacksonville on January 8, 1906.

Members of the board left for their respective homes Wednesday. Secretary Kellum, however, expects to remain here until Saturday, as he has some unfinished affairs of the body to wind up before leaving for Tallahassee.

Are Well Pleased.

The board is well pleased, not only with the site for the University, but with the city of Gainesville as a whole, and express the belief that this will make an ideal university town, the atmosphere being clean, moral and refined.

SUDDEN DEATH AT WALDO.

W. E. Merrill Passed Away, After Having Arrived From Tampa.

Waldo was shocked about 10 o'clock Tuesday when it was announced that Mr. W. E. Merrill was in a dying condition. He arrived in Waldo from Tampa on the 4 o'clock train and walked to his home. His wife asked him if he would have breakfast and he replied that as he had been on the road all night he would go to sleep. In about two hours his wife heard him groaning and went to his room and found him unconscious, in which condition he remained until 5 o'clock when he died.

Dr. Hodges of Gainesville was called, but Mr. Merrill was too far gone.

He was an employe of the Seaboard and was considered one of the best carpenters on the road.

He is survived by a wife and two children. The public extend condolence to the bereaved family.

The funeral was held Wednesday afternoon.

MELROSE MUSINGS.

Notice of Town Election—New Agent Appointed—Church Services.

Melrose, Dec. 13.—Notice has been posted of the town election to be held on January 25th, 1906, for mayor, three councilmen, town clerk, marshal and tax collector. Which of the latter marshal is the only one in demand.

The first meeting this season of the Ladies' Library and Debating Society will be held on Friday afternoon, December 15th.

W. E. Price has been appointed local agent of the Mallory Steamship Co.

Mrs. D. G. Hall of Worcester, Mass., paid a short visit to Melrose on Thursday to close up a real estate deal with the Melrose Manufacturing Company.

Archdeacon Goodwin of Starke held services at Trinity church on Sunday morning, preaching to a large congregation. Rt. Rev. E. G. Weed, Bishop of Florida, will hold services here on January 14th.

H. W. Hamlyn treated quite a number of his friends to a delightful outing in his new launch on Sunday afternoon.

An oyster supper will be given at the Hall-Man House by the Masonic lodge on December 27, the proceeds to be for the Masonic Orphanage fund. All are cordially invited to enjoy a good supper and help a good cause.

Without stopping for any of their boarders the crew pushed their boat off.

Failed.

A sufferer has failed to find a better remedy for coughs, colds and all throat trouble than Foley's Honey and Tar. It stops the cough, heals the lungs and prevents serious results from a cold. J. N. Patterson, Nashua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least half a dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." J. W. McCollum & Company.

To Build New Railroad.

Nashville, Tenn., Dec. 13.—A Humboldt, Tenn., dispatch to the Banner says that pledges representing the Tennessee towns of Humboldt, Newbern and Tiptonville and St. Louis and other places met at Humboldt yesterday and effected a reorganization of the old Missouri, Tennessee and Georgia railroad, a project started in 1857 to build a road from a point on the Mississippi river through Humboldt and Lexington on into Georgia. It is understood the road will be pushed to an early completion.

Furious Fighting.

"For seven years," writes Geo. W. Hoffman of Harper, Wash., "I had a bitter battle with chronic stomach and liver trouble, but at last I won, and cured my disease by the use of Electric Bitters. Unhesitatingly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine." Sold under guarantee at drug store, 50c a bottle. Try them today.

New Treasurer for Railroad.

Louisville, Ky., Dec. 13.—Official announcement was made last night of the election of L. W. Bolts, of Louisville, as the treasurer of the Louisville, Nashville and St. Louis railroad. Mr. Bolts succeeds H. V. Winters, who has been incapacitated on account of bad health.

Medical Men Meet.

Louisville, Dec. 13.—Representatives from many of the southern states were present at the opening session of the Southern Surgical and Gynecological association. The convention will continue for three days and many papers on the medical profession will be read and discussed.

Fears Entertained for Boat's Safety.

Washington, Dec. 13.—The navy department has telegraphed to Rear Admiral Thomas, commandant of the naval training station at Newport for information about the gunboat Wasp, for whose safety fears have been entertained.

CUT MAN IN COURT.

Serious Difficulty Occurred Between Men at Trial.

Corsicana, Tex., Dec. 13.—J. M. Ingram, a Confederate veteran, was fatally cut by [illegible] name of Pentacost, [illegible] Central [illegible].

Pentacost has been a witness against Ingram in some domestic trouble and Ingram is said to have threatened his life.

They were engaged in the melee before the officers present could stop it. Ingram he had cut Pentacost about five times, several times in the neck and vein. Pol[illegible] was also in the melee, but not badly. Ingram is in the county jail charged with intent to murder.

Packages of Jewelry Stolen.

Houston, Tex., Dec. 13.—Three packages containing articles of jewelry, watch cases and works to the value of $2,500, disappeared from an express wagon [illegible] were left under the seat while the driver stepped across the street. When he returned they were gone. They were consigned to jewelry firms in Houston and were about to be delivered. A similar event occurred last week when a package valued at $1,000 disappeared.

Heavy Damage By Recent Storm.

Halifax, N. S., Dec. 13.—Wire communication with points along the coast is restored and the reports coming in tell of heavy damage by the recent storm. At North Sydney the schooners Samoset, Edith Emory, Fanny S. Orne and the Maggie A., are ashore. At Archtat, C. B., the steam steamer Perry Cahn was forced ashore and is full of water. No lives were lost so far as known.

La Grippe and Pneumonia.

Pneumonia often follows a severe case of La Grippe, but never follows the use of Foley's Honey and Tar. It cures la grippe coughs and prevents pneumonia and consumption. Ask for Foley's Honey and Tar and refuse any substitute offered. Mrs. G. Vachè, 1057 Osgood street, Chicago, writes: "My wife had a severe case of la grippe three years ago and is left her with a terrible cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50 cent bottle cured her cough entirely." Refuse substitutes. J. W. McCollum & Company.

Decide Present System of Football.

San Francisco, Dec. 13.—The faculty athletic committee of the Stanford university and the University of California, met in this city yesterday and adopted a resolution decrying the present system of football playing in America. It is recommended that the Rugby game be introduced as a substitute.

Remarkable Cure.

"I was much afflicted with asthma," writes Ed O. Nutt, Lowville, Selgwick Co., Kans., "going about on crutches and suffering a great deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three bottles. It is the greatest liniment I ever used. Have recommended it to a number of persons. All express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c, 50c and $1. Sold by W. H. Johnson.

Did Not Act on Rate Bill.

Knoxville, Tenn., Dec. 13.—The meeting of the coal operators of Tennessee, held in this city today to take action on the Esch-Townsend railroad rate legislation bill, was adjourned without action in that respect.

Strike Situation Unchanged.

Waycross, Ga., Dec. 13.—The strike situation on the Atlantic and Birmingham railway is practically unchanged from yesterday. It is claimed by the men that every engineer and fireman on the system quit work and that not one will return until they receive concessions from the road.

Col. Chubb concluded his telegram with the announcement that the names of Walter G. Robinson and Henry S. Chubb for register and receiver of the United States land office at Gainesville, respectively, would be sent by the President to the Senate for confirmation at once.

Cols. Robinson and Coombs of Apalachicola are the recognized leaders of the Republican party in Florida, and wield a great and strong influence with the department at Washington, as has been demonstrated on several occasions. The officials of the land office are men of honesty, fairness and integrity, and the people of the State, regardless of political affiliation, are perfectly satisfied with their management of the affairs of the office, and will be glad to hear of their appointment, as they had hundreds of recommendations from leading Democrats of the State.

SUN ADVERTISING PAYS.

Merris-Peirce Company Were Rushed at Wednesday's Sale.

Another demonstration that The Sun reaches more people than it seems to profitable advertising and merchants are learning this every day.

In Monday's Weekly and Tuesday's Daily Sun this enterprising firm carried a full-page advertisement announcing a big ten-day sale, beginning at 9 o'clock Tuesday morning. The result was that the advertisement, coupled with the bargains offered, brought hundreds to the store, a large crowd actually waiting for a half-hour before the doors were thrown open. The force of salesmen was not sufficient to wait upon the trade, but this was immediately arranged to increase same, with the result that there will be many new faces among the salesmen this morning.

The firm is advertising for a couple additional clerks to complete the force, and for the remainder of the sale customers will have no trouble in

NEWS OF CITY AND COUNTY CONDENSED

The regular weekly meeting of Gainesville Lodge No. 900, B. P. O. E. will be held at Masonic Hall this evening, beginning at 8 o'clock. There will be work, and a full attendance is desired.

J. B. Fletcher of Waldo, who is employed as baker for Bennett's Bakery, was in the city for a few hours yesterday. Mr. Fletcher has his trade down to a fine point, and is regarded as one of the most consistent all-round bakers in the State.

T. V. Shands has returned from West Florida, where he has been looking after the interests of the Crescent Manufacturing Company, navy stores operated near Barrabee. Mr. Shands is president of the new company, which has just been organized. He has great confidence in its future as the timber in that section is very fine.

Friends of Mrs. A. M. Pournell of this city, who is critically ill at the home of her son in Waycross, Ga., will regret to learn that her condition is not changed, and that the end may be expected any hour. Mrs. P. M. Pournell and children, as well as other relatives, are now at her bedside, and it is hoped that her condition is not as serious as reported, and that she will soon recover.

HIGH SPRINGS NOTES.

Religious Meetings Closed—Municipal Election—Other News.

High Springs, Dec. 13.—Rev. M. H. Outland, assisted by Rev. Colecopper, has just closed a very successful revival at the Methodist church.

The municipal election was quietly pulled off here last Tuesday. There was but one ticket out, therefore everything passed off quietly. The new administration promises to make it warm for the blind tigers.

Our little Christmas thus [illegible] High Springs has yet. Every indication points to a dull time save the question of booze.

On account of his failing health Mr. Setzer, mogul of The Hornet, has not promised [illegible] paper another year. He contemplates spending the winter in Florida for Hot Springs, Ark., the hope of having his health restored.

Rev. Dr. Allen, the newly called Baptist pastor, has resigned the pastorate of this church. The discord has not been made public.

The Requisite of Beauty.

The first requisite of beauty is a clear complexion, and Dr. King's Laxative Fruit Syrup clears a sallow, blotched complexion as it stimulates the liver and bowels, and the eyes become bright and clear. You owe it to your friends to take it and look well. Orino Laxative Fruit Syrup does not nauseate or gripe and is pleasant to take. Before substitutes J. W. McCollum & Company, [illegible]

LETTER FROM MR. HOLLEY.

Sends Congratulations to The Sun and Greeting to Gainesville Friends.

Augusta, Ga., Dec. 10, 1905.

Editor Gainesville Sun: Allow me to congratulate you on the great success of your Industrial Edition. It was a gem and shows well the progress and push of the proprietors of The Sun. Gainesville is growing. From every copy of The Sun I see that some new improvements are being made or contemplated. Many of the pictures in The Industrial Edition are familiar and call up pleasant memories of the past.

We are getting on nicely in our new field of labor. Everything here is on the up-grade. Our church is working as it never did in its history. Since we came to this place we have put on foot a move by which we will be able to build and pay for our new church in short order. We have about five hundred members, and a great number of them are giving the tenth of their income to the expenses of the church and to the new building. This will bring into the church about three thousand dollars over and above the expenses of the church. With the amount that we can raise elsewhere we will build in the next year, or at latest within eighteen months.

Augusta, too, is on a boom, more than $42,000 having been subscribed for the Greater Augusta, and a chamber of commerce is being organized. Almost everybody in the city is into the move. New industries are coming this way. Recently a sixth mill has been established. Other new cotton mills are in contemplation of erection. We now have two large tourist hotels—the Hampton Terrace and the Bon Air—both of which are filled during the tourist season. Plans are on foot for another hotel to cost about $300,000. Never in the history of the city has the future looked so bright. Recently the city floated about a half million dollars worth of city bonds with which to retire bonds at a higher rate. The entire amount was taken by citizens of the city.

The latest that we have is that the city electric railroad company has sold out to a company in Columbia, S. C., and that soon works will have an electric road from here to Aiken. This road is to be extended to Columbia.

If your people are not learning progress [illegible] to come this way.

Thanking you for sending a copy of The Industrial Edition, I am

Yours respectfully,

J. B. HOLLEY.

Grip Quickly Knocked Out.

Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of la grippe with all its miserable symptoms, says Mr. J. S. Egleston of Maple Landing, Iowa. Aches and joints aching, muscles sore, head stopped up, eyes and nose running with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a dose of Chamberlain's Stomach and Liver Tablets, and in [illegible] soon completely knocked out the grip." FLORIDA IN CONGRESS.

The Florida members of Congress have been placed on the following committees of the House by Speaker Cannon:

Hon. Frank Clark, committee on claims and committee on expenditures in the postoffice department. Hon. W. B. Lamar, foreign affairs and Pacific railroads. Hon. S. M. Sparkman still maintains his old place on the rivers and harbors committee.

With Congressman Clark on the committee of expenditures in the postoffice department, our postoffices and postal routes in this State may receive needed attention, as Mr. Clark is a worker without any fuss and feathers.

Hon. Frank Clark has been made a member of the House committee on claims.

If the yellow fever peril is worse than the Cossack scourge, we pity the poor peasants of Russia.

The ballot boxes of New York City are being probed. Perhaps they expect to find the ball-ballots.

Russian refugees are beginning to arrive in New York in great numbers. They tell some horrible tales of pillage and murder.

The latest reports announce that Witte is not sanguine. But the streets of some of the cities of Russia have a sanguine look.

"Everybody is full of Christmas cheer but father," says The Atlanta Constitution. Wait a bit and give the old man a show. He has a chance yet to get full before the event is here.

The American Tobacco Company has been sustained by the Supreme Court in Brooklyn in its refusal to sell to a retailer because the company wanted to freeze him out of business. Another trusty judge.

If John Sharpe Williams keeps up his leadership in the House at Washington in the same manner in which he has started out, he will make some of those fellows aware of the fact that they must stand by the regular caucus.

If the steamship companies are subsidized they say they can compete with foreigners. Why not let the Government run the lines, and then the steamers could be drafted without trouble, should they be needed to strengthen the navy.

As the Christmas time draws near the robbers begin to get presents. A few days ago three packages of watch cases and works were stolen from an express wagon at Houston, Texas, the three being valued at $2,500. The robbers will possibly be doing the Santa Claus act shortly.

The chances of Congressional railway rate legislation are already faded. Senator Tillman's bill is said to be the best yet offered, and Senator Foraker decided it would be all right if the Government would go into rate legislation; but that it could not, as such bills are unconstitutional.

RISING PRICE OF COTTON.

Henry Irving Dodge, in Public Opinion of December 9, says that Europe will bear the burden of the rising price of cotton, and that here there is little to cause us worry. "It is said that the welfare of the world lurks in a cotton seed," he says. "Truly, the potency of this tiny thing is incalculable. For a long time resourceful minds have devoted themselves to multiplying its usefulness, with the result that today it enters basically into an incredible number of our industries, and through their ramifications has become the most active factor in our commerce. Not alone in new ways, but in new fields, does this heaven-sent staple bless mankind The distinguished Henry W. Grady said: 'I believe that every missionary of the gospel, as he penetrates the wilds of Africa or the islands of the sea, is an advance agent for Southern cotton' What a field, then, did Mr. Grady's words unfold, since only two-thirds of the human race have ever seen cotton! Practically the whole civilized world is looking to America for its supply of the raw staple.

"Clearly, then, our planters hold the key to the situation at present. Logically, higher prices will impel increasing planting and crops. But cotton requires the soil, climate and population peculiar to our 'belt,' and this has a physical limit. Unfortunately, when it ceases to expand it cannot go skyward like our New York City property, therefore—prices must. Evidently the planter's worst days are behind him. He need not think or talk any more nonsense about burning his cotton or restricting his plant. The momentum that demand has recently attained has obviated all that."

FREE SEEDS.

A press dispatch says that 38,000,000 packages of seeds are being sent by members of Congress to their constituents this winter. The total appropriation for this seed distribution is $290,000. At one cent a package those named would cost $380,000 and the seed cost is not the only item of expense that the appropriation must pay. It is a reasonable assumption, then, that she packets cannot cost over half a cent each. Yet the law provides for the free distribution of "rare and valuable" seeds only. How rare and valuable packages of seeds are likely to be that cost half a cent each, we leave for their recipients to judge. This costly farce is kept up by Congressmen to give them an opportunity to chuck a favor to some of their constituents at public expense.

So far as the Congressmen are concerned in the matter it looks as though they had little or nothing to do with it, only that the seeds are sent through the mails under their frank, as they—the seeds—are started out at about the same time our representatives leave their homes for the National Capital.

If these packets weigh one ounce each it will cost the government $380,000 to transport them by mail; at all events our postal authorities say that a cent-an-ounce postal rate charged for merchandise of all kinds is largely responsible for chronic postal deficit. Cut out the cost of the seeds and the postage and a big slice would be cut out of that deficit.

The Washington Times says: "It has hardly reached that stage of the session where Mr. Crumpacker describes the wickedness of the Southern people and Mr. Bertie Adams introduces his perennial whipping post bill. However, both will come."

Wild game is so plentiful along some of the railroads of the State that it is almost impossible to get trains along without killing something. A large bear was killed by the locomotive of a train in the south part of Marion county a few days ago.

DESIGNER FOR JANUARY.

The front cover of The January Designer is extremely effective, showing a pretty woman in coat and furs watching the flight of a coal-black crow across a wintry-white landscape. The three color-plates, too, are of unusual excellence, and especially attractive is the colored pageful of charming, romping children in party array. Costumes, novel and artistic in design for masquerades are shown in full-page illustration, and aside from these there are eight full-page and numerous smaller fashion pictures. Among the miscellany are "Florida Products," by Julia Davis Chandler; "Winter Sports" and "Women Who Study the Sky's Profoundest Secrets," by W. Manly Vander Weyde. "Jiu-Jitsu Training" gives further instruction in these exercises, which may be utilized as a means for health or for self-defense, and "In the Interest of Bread-Winning" Bertha Hasbrook advocates "The Delicatessen" as a money-maker. "At the Mercy of the Snow," by Martha McCulloch-Williams, is a New Year story with a thrill in it, and "Grips Gone Wrong," by Caroline Miles, is a brisk comedy in one act. The Designer is the favorite of the ladies, its useful hints being of inestimable value to every household.

There is one thing certain about getting Florida sand in one's shoes, that it appears to show a lack of good sense to try to get it out. From the present outlook it may be called mighty "quick sand," as there are many men who have come here and got quick returns from it. There are thousands of people in the North who would come here to at least spend the winter if they knew the true facts regarding the country. But those who have poor lands in some parts of the State are anxious to get rid of them, and where they "take in" one Northern man and he returns home with a tale of woe he stops a hundred from coming South. Square dealing in lands counts just the same as in any other business. Don't say your land is good if it is not and you will soon get settlers.

Pensacola is discussing the holding of a centennial celebration in 1919, the one-hundredth anniversary of Florida into the Union.

THE REAL TEST

Of Herpicide Is In Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vigors may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling hair?

No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

Doctors Could Not Help Her.

"I had kidney trouble for years," writes Mrs. Raymond Conner of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure and the very first dose gave me relief and I am now cured. I cannot say too much for Foley's Kidney Cure." It makes the diseased kidneys sound so they will eleminate the poisons from the blood. Unless they do this good health is impossible. J. W. McCollum & Co.

Mortgages to Secure Large Sums.

Chattanooga, Tenn., Dec. 13.—Within a week mortgages to secure $7,000,000 worth of bonds have been filed in the office of the county registrar in this city. The last one was for $1,000,000 by the American Brake Shoe and Foundry company, which has plants in Chicago, New Jersey and Chattanooga. Another was that of the Chattanooga and Tennessee River company for the issuance of $3,500,000 bonds and another for the Carbon Hill Coal and Coke company for $3,500,000.

MRS. WHITE ACQUITTED.

Charged With Murder of Her Husband's Paramour.

Atlanta, Dec. 13.—Mrs. [illegible] White, the woman in the case of "Mrs. White, known as the woman in black," who was arrested on a charge of murdering [illegible] in connection with the same case, the [illegible] recent visit of President Roosevelt to this city, was Monday acquitted by a jury in the superior court, and walked out of the court room a free woman in the sense of the word.

Mrs. White, whose husband [illegible] convicted as [illegible] in his connection with the case, is in a [illegible] position, however, as he must either pay a fine of $500 or serve 12 months in the [illegible] to New York to answer charges against him there.

The case of Mrs. White, who had money and [illegible] from him in the crowd the day the president was here, was [illegible] developed in the evidence upon the trial. It was brought out that White was under arrest about the clock that afternoon, and that Mrs. White was in possession of his [illegible] as late as 2 o'clock. When this evidence came out Solicitor [illegible] the case against Mrs. White, and [illegible] of the court.

The woman is young, almost girlish. She is a decided blonde and dresses stylishly. Her case, as well as that of her husband, aroused considerable interest when it came on for trial.

Boy Killed Playmate.

Knoxville, Tenn., Dec. 13.—Roy Walker, 6 years old, was shot and killed by Jesse Barber, a 7-year old playmate, with a toy pistol containing a Flobert cartridge. The boys were playing and one said to the other: "Let me shoot you," and the reply was, "No, let the Lehoot you." The pistol was fired and the bullet entered the Walker boy's body over the heart, causing instant death.

Says Law Covers Peonage.

Raleigh, N. C., Dec. 13.—Judge Justice, in charging the grand jury in the United States court here, said the landlord and tenant law of North Carolina, enacted two years ago, placed persons in peonage and was directly violative of the federal constitution and that it was the plain duty of the jury to enforce the constitution.

"Negro Lynched by Negro Mob.

Memphis, Tenn., Dec. 13.—Jim Green, a negro, has been lynched at Doyle, Miss., by members of his race. Green had assaulted a negro girl aged 8 years. He was captured at Shaw station and returned to the scene of his crime. A posse of negroes took him from his captors and hanged him to the limb of a tree.

Crops Suffer by Drouth.

Lahore, India, Dec. 13.—The [illegible] wheat and [illegible] of the Punjab are already suffering from the long and drouth and great anxiety is felt for the fate of the usually immense crop.

Great Liberator Honored.

Boston, Dec. 13.—Observance of the centennial of the birth of Wm. Lloyd Garrison was continued yesterday when several meetings were held in honor of the great liberator.

Bought Large Tract of Land.

Santa Ana, Cal., Dec. 13.—Arden, the mountain home of Mme. Desant, has been sold to L. Lemos, of Chicago. The property is 12,000 acres, largely mountainous.

A Fearful Fate.

It's a fearful fate to have to endure the terrible tortures of piles. "I can truthfully say," writes Harry Colem of Jasonville, Ia., "that for blind, bleeding, itching and protruding piles, Bucklen's Arnica Salve is the best cure made." Also best for cuts, burns and injuries. 25c at all druggists.

Not a Question of Seasons.

"How should we get married if there were no London season?" asked the debutante.

"Some of you would get married if you were bricked up in the cellar," said the American millionaire. "And ten to one I wouldn't marry the best in the boudoir.

Stomach Flutterings.

Undigested food and gas in the stomach is located just below the heart, pressing against it and causes heart palpitation. When your heart troubles you in that way take Herbine for a while. It will relieve you. 50c a bottle. Sold by W. M. Johnson.

THE FLYING FROG.

Its Tropical Africa.

The curiosity of tropical Africa is the wonderful flying frog, first described by Bishop of the equatorial African expedition, which returned to Europe in the fall of 1904. This variety of the reptile family is about the size of a common bullfrog and resembles other members of the order of batrachians in everything but in the extraordinary size which is webbed, and enormously large, so much so as to form splendid substitutes for true wings. The creature has five toes on each of the other two, which makes four separate membranes on each of his hind feet and three on each fore foot, or fourteen in all. In his description of it Bishop says, "Each leg terminates in a sort of fan, and with these the little reptile paddles the air like a locust or like a partially clipped bird betting its pinions for the first time."

Although somewhat awkward in its flight, the winged frog can dart through the air at a speed of about ten yards per second and can keep itself going forward at that rate for from ten to fifteen seconds. The average distance covered by these gusts of grasshopper-like flight is from 75 to 125 yards, but Bishop mentions instances where the flying frog cleared sandy stretches 200 yards in width.

A PAIR OF RUBBERS.

If You Fear Lightning.

The one thing which a woman most dreads—barring, of course, a mouse and being out of style—is a thunder shower. Many most estimable women of character and force who can lead great armies and revolutionize society go all to pieces at the sound of the thunder, and a good many men do for that matter.

It is not agreeable to be struck by lightning. Nor is it at all necessary. There is a sure preventive—as sure as it is simple, inexpensive, and always accessible—a pair of rubbers. If a woman will simply put on a pair of rubbers when the lightning begins to flash and the thunder to roar and will stand on the floor during the storm, nothing else she will be as safe as if she were sealed in a glass case.

Rubber is a nonconductor of electricity, and if the lightning has to go through a sheet of rubber to get at you it will leave you alone and take something else. Or rather or shoes and have on a pair of rubbers and are hot in contact with anything you are perfectly insulated.

This is not a theory merely. It is a fact proved by innumerable experiences. A pair of rubbers has saved many a [illegible]

THE HOMER OF PORTUGAL.

Camoens, the Gifted and Unfortunate Author of "The Lusiad."

"The Lusiad" is one of the noblest records of national glory, and success, Camoens, its gifted author, determined to do for Portugal what Homer had done for Greece. The great poem was written in the sixteenth century, which has been called the heroic age of Portugal, and its main feature is the rounding of the Cape of Good Hope by Vasco da Gama, while the [illegible] crowning after death of Ines de Castro as queen of Portugal. "The Lusiad" took its name from Lusius, who was said to have founded Lisbon.

Its [illegible] and his career, which began brilliantly, was blighted by the death of a broken heart of the lady [illegible] whose sake he was banished from the land. He wrote "The Lusiad" in his banishment and was recalled in 1571, losing [illegible] on the way. [illegible] kept his poem. Pensioned at first by the king, this great epic poet of Portugal died in great poverty in 1570, when his patron was also dead.

Dr. Syntax.

On the English coast at Lulch End there stands a curiously formed bowlder with a profile resembling that of a human face. It is supposed that once the rocky head was held proudly erect and could look over the blue sea, but during some period of disturbance the huge bowlder was thrown forward so that now the forehead of the man rests against a neighboring rock. All these rugged and unpolished gloss [illegible] the most enduring granite. Locally the curious bowlder is known as Dr. Syntax.

THE WAR SECRET JOURNAL

Mrs. Pinkham's Private Diary Kept During the Civil War.

Mrs. Pinkham's private diary, kept during the civil war, is to be published in book form. Mrs. Pinkham was the wife of Col. Pinkham, who was in charge of the Washington bureau of military information during the war. Mrs. Pinkham was a woman of unusual ability and was in the confidence of many of the leading men of the time. Her diary is said to be full of interesting revelations.

Cheese Pill.

Cheese is a common article of food, but sometimes it disagrees with people. Chamberlain's Stomach and Liver Tablets are especially adapted to relieve and cure disorders arising from eating cheese. Price, 25 cents. For sale by all druggists.

Flower Seed.

Some seeds take longer than others to germinate. For instance, hollyhocks, marigolds, gillyflowers, rose of heaven, zinnias, come up in from three to five days if all circumstances are favorable that is, it is warm, moist and sunny enough. Asters, single dahlias, sunflowers, cornflowers, mignonette, morning glory, coreopsis, pinks, wallflowers, sweet williams and by far the greater number of annuals appear in from five to seven days, as do also, pansies, forgetmenots, petunias, verbenas, drummond's phlox and many others in from eight to ten days. Artemesia, feverfew, etc., in from ten to twelve days, tobacco, nicotiana in from twelve to fifteen days, others in from sixteen to twenty days. Clematis, perennial phlox and larkspurs take from twenty to thirty-five days to germinate. —Celia Thaxter's "An Island Garden."

Citric Acid.

Enormous quantities of citric acid are used in calico printing, in pharmacy and in the preparation of effervescing drinks. A solution of 170 grains of pure citric acid dissolved in a pint of water give a solution which has the average acidity of good lemon juice. When diluted with several times its bulk of water, sweetened with sugar and scented with a single drop of essence of lemon, an effervescing drink is cheaply produced, which is much used as a cooling drink in fever hospitals. Pure citric acid possesses, like some other acids, the power of destroying the bad effects of polluted water used for drinking, but it is perhaps best to boil the water before adding a little citric acid to it.—Chambers' Journal.

Coughing Spell Caused Death.

Harry Duckwell, aged 25 years, choked to death early yesterday morning at his home in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing and was unable to breathe. His wife sent for a physician, but before he could arrive another coughing spell came on and Duckwell died from suffocation. He died [illegible] December 1st, 1905. Ballard's Horehound Syrup would have saved him. 25c, 50c and $1.00. Sold by W. M. Johnson.

Keep Your Head Clear

And your stomach free from indigestion and you can be happy with yourself, family and your fellow man.

The surest thing on earth to get a man's system out of whack is heavy, sodden bread, which is caused by various reasons, first, the material may not be good; second, the cook does not understand how to mix it; third, she will make the heaviest bread if improperly mixed or cooked. WE USE THE BEST FLOUR and our "long suit" is knowing how to mix and bake it. Our bread does not cost any more than home made and many prefer it as it is so much more palatable.

CHRONOMETERS.

The equipment of United States vessels for sea service one of the essential prerequisites of their is the marine chronometers, instruments of peculiar construction and of perfection in workmanship, by which time is measured with extreme accuracy, as in determining geographical longitudes and ascertaining the difference of time.

One of the most essential and practical features of the United States naval observatory is a special building for the custody of these delicate instruments, which are thoroughly tested before being delivered to a work that requires much care and attention, from three to six months in a year.

The building consists of a chronometer room at the observatory a temperature room in which the testing is done, and a building where the influence of the hygrometric conditions of the atmosphere upon the running of chronometers is tested by the rooms heated by circulation of hot water, the fuel being gas controlled by electricity, and is cooled by an ice refrigerator that of the outside atmosphere. The temperature is closely [illegible] day during trial and recorded for the previous twenty-four hours by a chronometric thermometer and by self-registering maximum and minimum thermometers.

The chronometers are compared daily between 11 and 11:40 o'clock a. m. with the mean time standard clock and the errors and rates are worked up every [illegible] these mean rates calculations are made to the nearest quarter of a second. All chronometers received at the observatory are placed on trial prior to their purchase by the government and are tested at the temperatures between 45 and 90 degrees F., fifty-five, 70 and [illegible] grees are also temperatures between [illegible] all [illegible] chronometers [illegible] navy.

The trials are commenced near the middle of the summer or the middle of winter in each year, so that the extreme temperature of both extremes can be used as well as artificial ones.

Chronometers are selected, with view to the temperature in which they are to be used, those for [illegible] mates the reverse.

When called for, they are taken direct from the observatory to the navy department to their destination, while still running, with the greatest care. They are delivered to the navigation officer of the navy yard or of the vessel, as the case may be, and the supervision of the observatory ceases until their return.—New York Times.

Woman Who Created Scandal Arrested.

Declared Husband Was Insane—Released on Bail.

Atlanta, Dec. 13.—The woman in the case of "Mrs. Black," who was arrested on a charge of perjury, preferred against her by her husband, as the result of her recent visit of President Roosevelt to Atlanta, was, Monday acquitted by a jury in the superior court, and walked out of the court room a free woman in every sense of the word.

Her husband, who had declared that she was insane, and had her committed to the asylum, but who subsequently withdrew his petition, was in his seat in the court room when the verdict was rendered, and as the woman in the case passed out of the room she walked over to him and shook hands with him in the presence of the crowd the day the verdict was rendered.

The case developed in the evidence given by Solicitor General Hill that Mrs. White, known as the "Black Rose," had been arrested in Chicago on a charge of forgery, and that her husband had gone to that city and secured her release on bail. It was also developed in the evidence that Mrs. White was under arrest about 1 o'clock that afternoon, and that Solicitor General Hill was in possession of the papers as late as 2 o'clock. When this evidence came out Solicitor General Hill announced that he would not prosecute the case, and a verdict of not guilty was rendered.

The woman is young, almost girlish. She is a decided blonde and dresses stylishly. Her case, as well as that of her husband, aroused considerable interest when it came on for trial.

Boy Killed Playmate.

Knoxville, Tenn., Dec. 13.—Roy Walker, 6 years old, was shot and killed by Jesse Barber, a 10-year old playmate, with a toy pistol containing a Flobert cartridge. The boys were playing and one said to the other: "Let me shoot you," and the reply was, "No, let the Lehoot you." The pistol was fired and the bullet entered the Walker boy's body over the heart, causing instant death.

Says Low Sewers Passage.

Raleigh, N. C., Dec. 13.—Judge Jus. hell, in charging the grand jury in the United States court here, with the landlord and tenant law of North Carolina, enacted two years ago, placed persons in charge of sewers directly violative of the federal constitution and that it was the plain duty of the jury to enforce the constitution.

Negro Lynched by Negro Mob.

Memphis, Tenn., Dec. 13.—Jim Green, a negro, has been lynched at Boyle, Miss., by members of his race. Green had assaulted a negro girl aged 8 years. He was captured at Shaw station and returned to the scene of his crime. A posse of negroes took him from the captors and hanged him to the limb of a tree.

Crops Suffer by Drouth.

Lahore, India, Dec. 13.—The wheat and other crops of the Punjab are already suffering from the long and drouth and great anxiety is felt for the fate of the usually immense crop.

Great Liberator Honored.

Boston, Dec. 13.—Observance of the centennial of the birth of Wm. Lloyd Garrison was continued yesterday when several meetings were held in honor of the great liberator.

Bought Large Tract of Land.

Santa Ana, Cal., Dec. 13.—Arden, the mountain home of Mme. Desant, has been sold to L. Lemos, of Chicago. The property is 12,000 acres, largely mountainous.

A Fearful Fate.

It is a fearful fate to have to endure the terrible tortures of piles. "I can truthfully say," writes Harry Odeen of Masonville, Ia., "that for blind, bleeding, itching and protruding piles, Bucklen's Arnica Salve is the best cure made." Also best for cuts, burns and injuries. 25c at all druggists.

Not a Question of Seasons.

"How should we get married if there were no London season?" asked the debutante.

"Some of you would get married if you were bricked up in an igloo," said the old bachelor. "And ten to one you wouldn't subsequently find the key to your own boudoir."

THE FLYING FROG.

Amazing Batrachian Found in Its Tropical Africa.

The curiosity of tropical Africa is the wonderful flying frog, first described by Bishoff of the equatorial African expedition, which returned to Europe in the fall of 1904. This county of the reptile family is about the size of a common bullfrog and resembles other members of the order of batrachians in everything; but its chief feature, which is webbed, and enormously enlarged, so much so as to form splendid substitutes for true wings. The creature has five toes on each of the other two, which makes four separate membranes on each of his hind feet and three on each fore foot, or fourteen in all. To one description of it Bishoff says: "Each leg terminates in a sort of fan, and with these the little reptile paddles the air like a locust or like a partially fledged bird testing its pinions for the first time."

Although somewhat awkward in its flight, the winged frog can dart through the air at a speed of about ten yards per second and can keep itself going forward at that rate for from ten to fifteen seconds. The average distance covered by these sprints of grasshopper-like flight is from 75 to 125 yards, but Bishoff mentions instances where the flying frog cleared sandy stretches 200 yards in width.

A PAIR OF RUBBERS.

Wear Them During Thunderstorms if You Fear Lightning.

The one thing which a woman most dreads—barring, of course, a mouse—and being out of style is a thunder shower. Many most estimable women of character and force who can lead great armies and revolutionize society to go to pieces at the sight of a thunderbolt, and a good many men, for that matter.

It is not agreeable to be struck by lightning. Nor is it at all necessary. There is a sure preventive—as sure as it is simple, inexpensive, and always accessible—a pair of rubbers. If a woman will simply put on a pair of rubbers when the lightning begins to flash and the thunder to roar and will stand on the floor or on a chair, nothing else, she will be as safe as if she were sealed in a glass cage.

Rubber is a nonconductor of electricity, and it the lightning has to go through a sheet of rubber to get at you it will leave you alone and take something else. In other words, you have on a pair of rubbers and are both in contact with something you are perfectly insulated.

This is not a theory merely. It is a fact proven by innumerable experiences. A pair of rubbers has saved many a life.

THE HOMER OF PORTUGAL.

Camoens, the Gifted and Unfortunate Author of "The Lusiad."

"The Lusiad" is one of the noblest records written of national glory, and success Camoens, its gifted author, determined to do for Portugal what Homer had done for Greece. The great poem was written in the sixteenth century, which has been called the heroic age of Portugal, and its main feature is the rounding of the Cape of Good Hope by Vasco da Gama, while the poem itself is the crowning after death of Ines de Castro as queen of Portugal. "The Lusiad" took its name from Lusius, who was said to have founded Lisbon.

Its author, gifted and his career, which began brilliantly, was blighted by the death of a broken heart of the lady whose sake he was banished from the land. He wrote "The Lusiad" in his banishment and was recalled in 1571, losing one eye. While there he finished his poem. Pensioned at first by the king, this great epic poet of Portugal died in great poverty in 1570, when his patron was also dead.

Dr. Syntax.

On the English coast at Lulworth Cove there stands a curiously formed bowlder with a profile resembling that of a human face. It is supposed that once the rocky head was held proudly erect and could look out over the blue sea, but during some period of disturbance the huge bowlder was thrown forward so that now the forehead of the man rests against a neighboring rock. All these rugged and massive ghosts are defying the mist-shifting granite. Locally the curious bowlder is known as Dr. Syntax.

The Woman Who Created Scandal Arrested.

There was the little portable stage, or castelletto, on which the burattini of Florence and Rome and the fantoccini of Naples played their nimble parts. The latter city was the birthplace of the hero of the modern street drama, "Pulcinella," so named, it is said, from the hen chicken, whose cry his voice is supposed to resemble. The Neapolitan Pulchella was by no means such a monster of iniquity as our English Punch. He seems to have been nothing worse than a pleasure loving, quick witted, irresponsible scamp of the "nobody's enemy but his own" type.—Corphill Magazine.

The Key That Unlocks the Door to Long Living.

The men of eighty-five, ninety years of age are not the rotund well fed, but thin, spare men who live on a slender diet. Be as careful as he will, however, a man past middle age will occasionally eat too much or of some article of food not suited to his constitution, and will need a dose of Chamberlain's Stomach and Liver Tablets to cleanse and invigorate his stomach and regulate his liver and bowels. When this is done there is no reason why the average man should not live to old age. For sale by all druggists.

Flower Seed.

Some seeds take longer than others to germinate. For instance, hollyhocks, marigolds, gillyflowers, rose of heaven, zinnias, come up in from three to five days if all circumstances are favorable—that is, if it is warm, moist and sunny enough. Asters, single dahlias, sunflowers, cornflowers, mignonette, morning glory, coreopsis, pinks, wallflowers, sweet williams and early the annual nurse-of ann appear in from five to seven days, phlox, portulacas, pyrethrums, poppies, verbenas, drummond's phlox and many others in from eight to ten days, Artemesia, feverfew, etc., in from ten to twelve days, nicotiana, nicotiana in from twelve to fifteen days, others in from sixteen to twenty days. Clematis, perennial phlox and larkspurs take from twenty to thirty-five days to germinate. —Celia Thaxter's "An Island Garden."

Citric Acid.

Enormous quantities of citric acid are used in calico printing, in pharmacy and in the preparation of effervescing drinks. Eleven pounds (five kilogrammes) of pure citric acid dissolved in a pint of water give a solution which has the average results of good lemon juice. When diluted with several times its bulk of water, sweetened with sugar and scented with a single drop of essence of neroli, an artificial lemonade is cheaply produced, which is much used as a cooling drink in fever hospitals. Pure citric acid possesses, like some other acids, the power of destroying the bad effects of polluted water used for drinking, but it is perhaps best to boil the water before adding a little citric acid to it.—Chemical Journal.

Coughing Spell Caused Death.

Harry Duckwell, aged 25 years, choked to death early yesterday morning at his home in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing and choked to death. His wife sent for a physician, but before he could arrive another coughing spell came on and Duckwell died from suffocation. The funeral will occur Thursday, December 14th, 2:00. Ballard's Horehound Syrup would have saved him. Sold by W. M. Johnson.

CHRONOMETERS.

The equipment of United States vessels for sea service one of the essential prerequisites of their duty is the marine chronometers, instruments of peculiar construction and great perfection in workmanship, by which time is measured with extreme accuracy, as in determining geographical longitudes, and ascertaining the difference of time.

One of the most essential and practical features of the United States naval observatory as a national institution is the custody of these delicate instruments, which are thoroughly tested before being delivered to navy vessels. This work requires much care and attention, from three to six months in a year.

There is connected with the chronometer room at the observatory a temperature room in which the testing of chronometers is done, where the influence of the hygrometric conditions of the atmosphere upon the running of chronometers is studied. The rooms are heated by circulation of hot water, the fuel being gas controlled by electricity, and is cooled by an ice refrigerator that of the outside atmosphere. The temperature is closely watched each day during trial and recorded for the previous twenty-four hours by a chronometric thermometer and by self-registering maximum and minimum thermometers.

The chronometers are compared daily between 11 and 11:40 o'clock a. m. with the mean time standard clocks, and the errors and rates are worked up every day. For these mean rates calculations are made to the nearest quarter of a second. All chronometers received at the observatory are placed on trial prior to their purchase by the government and are tested at the temperatures between 45 and 90 degrees F., fifty-five, 70 and [illegible] degrees, [illegible] all [illegible] chronometers [illegible] navy [illegible]

The [illegible] makes of chronometers [illegible] instruments for [illegible] test. The instruments are placed on trial by their numbers, and those failing to pass are returned to their makers. The trials are commenced near the middle of the summer or the middle of the winter in each year, so that the [illegible] temperature of both extremes can be used as well as artificial ones.

Chronometers are selected [illegible] view to the temperature in which they are to be used, those for [illegible] making [illegible] watches going [illegible] rates [illegible] mates the reverse.

When called for, they are taken direct from the observatory to the navy department to their destination, while still running, with the greatest care. They are delivered to the navigation officer of the navy yard or of the vessel, as the case may be, and the [illegible] the supervision of the observatory ceases until their return.—New York Times.

BEDS AND BEDDING.

The ancients slept on the floor or on divans covered with cushions. During the middle ages beds were made of ruches, heather or straw. It is believed that feather beds were known to the Romans, since a mention by one of the poets of the luxurious that they slept on feathers is supposed to refer to this kind of bed. Heliogabalus had an air cushion, and also an air mattress of 222 pounds. Feather beds were employed by the better classes in England during the days of Henry VIII., though they were considered luxuries and were expensive. The bedsteads of the Egyptians, Romans and Greeks closely resembled our couches. The Russian peasants place their beds on top of the family oven for warmth during the winter months. To the present day bedsteads in Holland and some parts of Germany are fitted up with two feather beds, on which the sleeper lies, while the other is used for covering.

Kellum of Tallahassee, secretary. Nat Adams of White Springs was the only member of the board not present, he being detained on account of urgent business.

Bids Considered.

The board spent a greater part of the time in considering bids for the erection of the buildings, there being a great many. After due and careful consideration the contract was let to the Hadlow Company, that firm being agreed upon as the lowest and best bidder.

What Contract Provides.

The contract calls for one college building and one dormitory building, and the material to be used will be brick and McCarroll stone, which will give a handsome effect. The college building will be 200x60, three stories, which will afford ample room for the next ten years. The dormitory specifications provide for a building 240x60, three stories high, which is calculated to provide accommodation for the matrons and 150 students.

The contract provides that the college building must be completed by August 1 and the dormitory by September 1, 1906, and the contractors promise to begin work as soon as possible.

Attorney W. W. Hampton of this city was elected representative of the board.

Board Selects Location.

The board visited the University grounds and were well pleased with the same. They made a thorough inspection and selected the location upon which the buildings for which the contract has been awarded should be erected. A surveyor will be sent here within the next few days.

There are other buildings, such as cottages, barns, etc., to be erected at the same time the college and dormitory are going up, but these were not included in this contract. Bids will be opened and considered and the contract probably let at the next session of the board, which adjourned to meet in Jacksonville on January 8, 1906.

Members of the board left for their respective homes Wednesday. Secretary Kellum, however, expects to remain here until Saturday, as he has some unfinished affairs of the body to wind up before leaving for Tallahassee.

Are Well Pleased.

The board is well pleased, not only with the site for the University, but with the city of Gainesville as a whole, and express the belief that this will be an ideal university town, the atmosphere being clean, moral and refined.

To Build New Railroad.

Huntsville, Tenn., Dec. 13.—A Huntsville, Tenn., dispatch to the Banner says that parties representing the Tennessee towns of Smithdale, Northern and Huntsville and St. Louis and other cities, met at Smithdale yesterday and effected a organization of the Smithdale, Tennessee and Georgia railroad, a project started in 1887 to build a road from a point on the Mississippi & Memphis Smithdale and Lexington [illegible] to an early con-

WOMAN IS VINDICATED.

Jury Declares Her Not Guilty of Pocket Picking.

Atlanta, Dec. 13.—"The woman in black," who was arrested on a charge of pocket picking as an incident of the recent visit of President Roosevelt, was Monday acquitted by a jury in the superior court, and walked out of the court room a free woman in every sense of the word.

Her husband, Henry C. White, who was convicted last week, came off better in his second case, being acquitted as his wife was. He is in a less fortunate position, however, as he must either pay a fine of $500 or serve 12 months in the chaingang, and then be sent to New York to answer charges against him there.

In the case tried Monday C. F. Shumate, who had money and bonds stolen from him in the crowd the day the president was here, was prosecutor. It developed in the evidence, however, that White was under arrest about 1 o'clock that afternoon, and that Shumate was in possession of his property as late as 2 o'clock. When this evidence came out Solicitor Hill threw up the case and consented to a verdict of acquittal.

As Mrs. White, known as "the woman in black," was indicted in connection with the same case, she, too, was promptly acquitted.

The woman is young, almost girlish. She is a decided blonde and dresses stylishly. Her case, as well as that of her husband, aroused considerable interest when it came on for trial.

Boy Killed Playmate.

Knoxville, Tenn., Dec. 13.—Roy Walker, 6 years old, was shot and killed by Jesse Barber, a 7-year old playmate, with a toy pistol containing a Flobert cartridge. The boys were playing and one said to the other: "Let me shoot you," and the reply was, "No, let me shoot you." The pistol was fired and the bullet entered the Walker boy's body over the heart, causing instant death.

Says Law Causes Peonage.

Raleigh, N. C., Dec. 13.—Judge Purnell, in charging the grand jury in the United States district court here, said the landlord and tenant law of North Carolina, enacted two years ago, placed persons in peonage and was directly violative of the federal constitution and that it was the plain duty of the jury to enforce the constitution.

Negro Lynched by Negro Mob.

Memphis, Tenn., Dec. 13.—Jim Green, a negro, has been lynched at Doyle, Miss., by members of his race. Green had assaulted a negro girl aged 8 years. He was captured at Shaw station and returned to the scene of his crime. A posse of negroes took him from his captors and hanged him to the limb of a tree.

PEASANTS ARE ON BRINK OF STARVATION

Appeal to Charitable People of America.

TO MAKE LACE AND EMBROIDERY

Political Parties Struggling for Mastery in Russia—"Black Masses" Comprise 80 Per Cent of 140,000,000 People—Want to Depose Nicholas.

St. Petersburg, Dec. 13.—Although the government is making efforts to relieve the famine in the five provinces where the crops failed last summer, the work is being greatly embarrassed by the unsettled conditions, and already pitiful tales of distress are pouring in from remote districts.

Peasants and their families are starving, and private relief is being sent. Appeals are being sent out not only through Russia, but to foreign countries. The situation in the province of Orel is very acute and the marshals of the nobility have requested the Associated Press to make a particularly strong appeal to the charitable and humanity of the Americans, whose harvests have been so bountiful this year. They ask that donations should be sent to Alexander Alexandrovitch Stakovich, one of the prominent Liberal leaders of Elets, government of Orioff, care of the Northern bank of that place. The committee is arranging to institute dining rooms and bakeries where the starving Moujiks and their families can be fed during the winter and also to arrange stations for the distribution of fodder for the horses and the cattle of the farmers, the death of which would be an untold calamity to them.

The women of the district have been put to work making lace and peasant embroidery by the sale of which it is hoped to increase the funds at the disposal of the committee.

In Orel province, especially the famine promises to be much more severe than that of 1891, when the American people so generously sent a ship load of wheat and corn to the starving.

While it is impossible in the present confusion to clearly outline the various political forces which are struggling for mastery in Russia, the foreign student of Russian affairs can, with profit, bear in mind the general party divisions as at present constituted. Perhaps first of all in the order of importance, is the party of reaction, not at court, but among the nobles who believe in the old regime and among the great mass of the peasantry, who still believe that [illegible] flows from the "Little Father" and church, and who continue peasant-hostile to the "intelligentsia" all good is regarded as part [illegible]," and the cry for their oppression extremely

The "black [illegible] gencia," which which the ig[illegible] of the machinprise 80 p[illegible] cession.

[illegible] er cent of Russia's 140,000,landl[illegible]le, are known, can, at any the [illegible] the scale. The peasants may fini[illegible]urn and pillage and murder em[illegible]rds, but there is no evidence that for[illegible]eligiance of more than an inconsiderable fraction turned against the tsar[illegible]eror. In skillful hands they, there, the, always will constitute an immense [illegible]luence in favor of a counter-revolution. There are two parties in which the peasantry might eventually be interested, and which might make up the tsarowe right, consisting of those who can never forgive the emperor for abrogating his autocratic power. They the[illegible] of the necessity of deposing Nicholas and electing a new emperor.

Count Feigwenki, of Moscow, one of the last descendants of the rurika, is their Genoa candidate.

[illegible] of these parties was organized in April by Baron George Rosen Leiningen, and others, who are in favor of sustaining the advocacy. The leaders of the imperial manifesto, another party called the Holy Alliance [illegible] tion, as self-protection, was [illegible] the leadership of Count [illegible] M. Sheremetieff. [illegible] all sons of Holy Ru[illegible] for teachings of Ch[illegible] Moscow's 500 churches, who alone number 200,000, have been enrolled in its ranks.

These parties might eventually sustain a military dictartorship against the revolutionary forces.

Immediately to the left of this party of reaction might be placed the moderate conservatives, who support Count Witte in the introduction of a new regime. They comprise the conservative zemstvo elements under the leadership of Dmitri Shipoff, M. Gouchkoff and Michaelkovich, and they have organized two parties called respectively the League of October Thirtieth and the party of Law and Order, with the Novoe Vremya and the Slovo as their organs. Their platform calls for the realization of the reforms promised for the integrity of the empire and for a strong central government.

Now come the parties favoring the complete overthrow of the government—the Social Democrats, Radical Democrats, Social Revolutionaries and Anarchives. The former, by far the best organized, is in favor, first, of a Democratic republic, and the latter for the attainment of the dream of a regime of universal socialism. The radical Democrats form a connecting link with the Socialist Revolutionaries. Their programe includes Democratic republic, with a single parliamentary chamber, ministers elected from the majority of the various nationalities, full autonomy, the abrogation of all titles and ranks and the extension of the suffrage to the people.

The program of the anarchists is held a secret.

TOBACCO FACTORY DYNAMITED.

Houses and Passenger Coaches Damaged by the Shock.

Louisville, Ky., Dec. 13.—A special to the Evening Post from Elkton, Ky., says:

The tobacco factory here owned by Mrs. M. B. Penyck, and operated for the [illegible]bacco trust by the American Snuff [illegible]ny, was blown up by dynamite at 1:30 o'clock this morning.

TO EMBARK IN MINING.

Miners to Enter Business on a Co-Operative Basis.

Denver, Colo., Dec. 13.—The executive board of the Western Federation of Miners last night decided to submit a proposition to the fund of $1,000,000 with which to embark in the mining business on a co-operative basis.

The plan outlined is to have each member of the Federation to contribute $10. One of the benefits of the plan, the committee believes is to give employment to members of the union who are deprived of work by reason of the card system in use in Colorado and other states.

Underwriters Abandon Vessel.

Havana, Dec. 13.—The Elder-Dempster liner, Angola, which grounded hard on a coral bottom while entering the harbor in a heavy sea Sunday night, has been abandoned by the underwriters. The vessel was wrecked by the rocks which pierced her hull. There is 15 feet of water in the hold, and the wheat is swelling.

Philippine Governor in Washington.

Washington, Dec. 13.—Luke E. MIDSHIPMAN GUILTY ON [illegible] CHARGES

Violated Articles for Government of Navy.

PUBLIC REPRIMAND IS ORDERED

Decision in Annapolis Courtmartial Case Confines the Young Man to the Limits of the Naval Academy for Period of One Year.

Washington, Dec. 13.—Midshipman Minor Meriwether, Jr., who was tried by courtmartial for causing the death of Midshipman Branch, has been sentenced to confinement to the limits of the naval academy for a period of one year, and to be publicly reprimanded by the secretary of the navy.

Secretary Bonaparte has ordered that the sentence be carried out, but that so much of the penalty as would debar the accused from serving on any practice ship attached to the academy be remitted.

Representative Broussard of Louisiana, who had a conference with the secretary this morning regarding the case, after reading the findings, announced that he was entirely satisfied with them.

Midshipman Meriwether was acquitted of the charge of manslaughter and found guilty of the the other two charges, namely, violation of the third clause of the eighth article for the government of the navy, which prohibits midshipmen from engaging in fisticuffs and conduct to the prejudice of good order and discipline.

WILL FILED [illegible] FOR PROBATE.

Wealthy Woman Gave Part of Her Estate to Southerners.

New York, Dec. 13—The will of Sarah H. Walker, who died on Nov. 23, was filed yesterday for probate. It leaves her friend, Captain H. Evans, a house in Charleston, S. C., for his life; on his death it is to go to the city hospital of Charleston "for use of white people only." A lot in Montgomery, Ala., also goes to the hospital there to found a surgical ward for white people only. Besides this, the Montgomery Hospital is to have $1,000, and Alfred S. Malcolmson and Dr. Thomas M Aken, her son, are to have $25,000 each, and divide the residue.

Miss Walker was a divorced woman, who had resumed her maiden name. Her former husband's name was Paul.

Several Injured in Wreck.

Nashville, Dec. 13.—A Littleton, Ala., dispatch says that an extra train consisting of an engine and caboose, on the Southern railway, eastbound, jumped the track at 3 o'clock this morning and went down an embankment near this place. The casualties are Engineer Arthur McElvery, fatally hurt; F. S. Bruce, fireman, dangerously injured; J. M. Green, brakeman, C. L. Fitzsimons, flagman, and Fred McDougall, conductor, seriously injured. The engine and caboose were badly damaged.

Body of Senator Mitchell Interred.

Portland, Ore., Dec. 13.—The last rites to the memory of the late Senator John Mitchell were said today. At 10 o'clock the casket was taken to the council chamber at the city hall, where at 12:30 the public was admitted. At 1 o'clock the casket was removed to the Congregational church, where the services were held. Following these the body was interred in the River View cemetery.

...ING OF CITY AND COUNTY COMMISSION

Matters of General Interest Considered by the BOARD OF CONTROL

PERSONAL INSPECTION TUESDAY AFTERNOON

THEY WILL MEET AGAIN TODAY

At the Session Monday Several Bids Were Received and Discussed, but No Definite Action Was Taken—Dr. Sledd and Prof. Hale Were Present.

From Tuesday's Daily Sun.

The State Board of Control held a meeting in this city Monday afternoon, at which were present Governor N. B. Broward of Jacksonville, chairman; A. L. Brown of Eustis, P. K. Yonge of Pensacola, M. B. King of Arcadia and S. G. Kellum of Tallahassee, secretary.

Dr. Andrew Sledd, president of the University of Florida, Prof. William B. Hale, superintendent of the Institute for the Deaf, Dumb and Blind, St. Augustine, Architect W. A. Edwards of Columbia, S. C., and a number of contractors for sand brick, stone, etc., were also present.

The meeting occupied the entire afternoon, but inasmuch as the board was in executive session, no definite information as to the deliberations was given out. A number of bids were received and discussed, but nothing definite was announced.

The Board adjourned at 5:30 until 9 o'clock this morning.

In the morning the members of the board and visitors were driven to the University grounds, and expressed themselves as being well pleased with the site, as well as the surroundings, the land being high and rolling.

Today being rule day in the Supreme Court, it may be possible that a decision in the Buchman bill case will be rendered, in which event the decision will be known here immediately after it is rendered.

THE BOARD OF CONTROL

Will be in session all day and late into the night tomorrow.

Night but Nothing Doing.

From Wednesday's Daily Sun.

The Honorable Board of Control was in session nearly all of Tuesday and up to a late hour Tuesday night, broken up at 11 o'clock nothing had transpired which could be given out for publication. It is understood, however, that the greater part of the time has been devoted to the consideration of various bids according to the plans and specifications of architect W. A. Edwards of Columbia, S. C., who is with the Board.

No tidings from the Supreme Court on the Business bill matter.

MONDAY'S COLD SNAP.

There Was a Good Frost, but No Damage to Vegetation Feared.

The first fears of consequence of the season appeared Monday morning, and in some sections of the city ice was reported. Experienced truckers, however, anticipate no damage to vegetation, but so till reverse feel that the cold will benefit the lettuce crop, having a tendency to make the plant head more quickly and firmly.

The bean shipments are not so heavy as formerly from some sections, but lettuce and peas are moving lively.

Lagrippe and Pneumonia.

Pneumonia often follows lagrippe, but never follows the use of Foley's Honey and Tar. It cures lagrippe, coughs and prevents pneumonia and consumption. Ask for Foley's Honey and Tar and refuse any substitute offered. Mrs. G. Vacher, 187 Osgood street, Chicago, writes: "My wife had a severe case of lagrippe three years ago and it left her with a terrible cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A \$1 cent bottle cured her cough entirely." Refuse substitutes. J. W. McCollum & Company.

HEAD SOLID SORE

Suffering and Sleepless Nights for Mother

CURED BY CUTICURA

Skin Fair as a Lily with no Scar to Recall Awful Sore

Writes Mother

"I herewith write out in full the beginning and end of that terrible disease eczema," says Mrs. Wm. Ryer, Elk River, Minn., "which caused my babe untold suffering and myself many sleepless nights. My baby was born seemingly a fair, healthy child, but when she was three weeks old a swelling appeared on the back of her head, and in scarce no time broke. It did not heal but grew worse and the sores spread from the size of a dime to that of a dollar. I used all kinds of remedies that I could think of, but nothing seemed to help; in fact, it grew worse. Her hair fell out where the sore was, and I feared it would never grow again. It continued until my aged father came on a visit, and when he saw the baby he told me to get Cuticura Soap and Ointment right away.

To please him I did so, and to my surprise by their use the sore began to heal over, the hair grew over it, and to-day she has a nice head of hair, her skin is as fair as a lily and she has not a scar left to recall that awful sore, and it is over eight months and no sign of its returning.

CURE PERMANENT

"Your letter of March 4th duly received, asking in regard to the cure of my baby some time ago. Well, she finished has never returned to her head which at that time was a solid sore on top and down the back of her neck. Mrs. Wm. Ryer, Elk River, Minn. Feb. 25, 1905.

Cuticura Soap and Ointment are sold throughout the world. Potter Drug & Chem. Corp., Sole Proprietors, Boston. BARLOW MINSTRELS GOOD.

This favorite Organization Better This Year Than Ever Before.

Barlow's Minstrels, which is owned by [illegible] has been a favorite with the Gainesville people, because it always good. Unlike other [illegible] which alternate in good and poor talent year after year, this aggregation is always refined and up to the standard, but this season is better than ever, and the large audience showed its appreciation Monday night by hearty applause which at times shook the house.

The music and singing was as good as ever heard here, and the specialties were above the average.

Among the specialties was Dan S. Holt, the Georgia Cotton Blossom, who has been with Barlow's Minstrels for many years. He is one of the best negro impersonators on the stage and has gained a national reputation.

Frank H. Tinney in his musical stunts was as fine as could be desired, and his [illegible] playing and dancing were all that could be desired. Mr. Tinney is an original character, and it has been suggested that he would make a decent sequel to small cut candidates over the hot coals of Elkdom.

The Barlow quartet retained the excellent reputation it has already made here among those who appreciate good vocal music.

The famous Lamy family of acrobats were wonders in their profession, while "Lively," the contortionist, was as good as contortionists ever get to be.

In all, the performance was first-class, and everyone was satisfied with the evening's entertainment.

Further Fighting.

"For seven years," writes Geo. W. Holman of Harper, Wash., "I had a bitter battle with chronic stomach and liver trouble but at last I won, and cured my diseases by the use of Electric Bitters. I unhesitatingly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine." Sold, under guarantee to do the same for you, by all druggists at 50c a bottle. Try them today.

Off on a Hunt.

W. R. Steckert and A. M. Cushman left Monday night for the wilds of Gulf Hammock, where they will spend a few days on a hunting expedition. Mr. Steckert informed The Sun man that he expected to slay a number of bear, and would present the editor of the paper with a saddle of jerked bear meat. Mr. Cushman did not make any promises.

In Mad Chase.

Millions rush in mad chase after health, from one extreme of fad-dism to another, when, if they could only eat good food, and keep their bowels regular with Dr. King's New Life Pills, their troubles would all pass away. Prompt relief and quick cure for liver and stomach trouble. 25c at all drug stores, guaranteed.

They Will be Held Pending Decision of Appeal to Supreme Court in Which Attorneys Have Forty Days to Prepare Briefs in Cases.

Scenes about the court house Monday reminded one of the ... session of the fall term of ..., which attracted large crowds, and ... adjourned Saturday night. The occasion was the presence of thirteen county prisoners and seven ... convicted at the fall term of the court and sentenced to State prison.

The convicted prisoners were brought from the jail to the court house, a distance of six blocks, just before noon, preparatory to the departure of the noon trains for their respective assignments. The State prisoners were chained in one bunch under command of State Transfer Agent E. H. Bridges of Ocala, to which place they will be taken and distributed to various leases of State convicts, while the prisoners for the Chase naval stores farm, Fairbanks, were in charge of Superintendent D. E. Godwin of the farm. They were also bound in chains, and as the procession advanced it attracted a large number of curious people of all ages and sizes, which followed it to the temple of justice.

All the prisoners with the exception of one, A. E. Whitley, a locomotive engineer who was convicted of larceny and sentenced to eighteen months in State prison, were colored. ISLAND GROVE NEWS.

Fruit and Vegetable Crops—Schools Prospering—Locals and Personals.

Island Grove, Dec. 8.—(Delayed)—There has been twenty-five hundred crates of beans and lettuce shipped from here this season, and only a small part of the lettuce crop has been shipped.

More than two thousand boxes of oranges have been shipped and it is estimated that there will be ten thousand more to ship. The fruit is of the choicest quality. The groves around Island Grove have been said to be the finest in the State.

Miss Jessie Cail, who is teaching at Reddick, spent a few days in Island Grove the past week.

Mrs. J. R. Shaw and Mrs. Wright are in Ocala attending the annual M. E. Conference.

Lester Lamber, one of our boys, was called to Jacksonville a few days ago to accept a position as stenographer and typewriter.

J. Whistler has returned to Island Grove. During the summer Mr. Whistler visited Ottawa, Canada, and other Northern cities. He has been spending a few weeks in Jacksonville, where he is interested in business.

Armour Brice, who is attending the Sutherland Institute, is expected home in a few days to spend the holidays with his parents.

Our school is progressing nicely under the supervision of J. O. Adkins, Fannie Mizell and Ova Adkins. Our enrollment is 95 and the average is more than 80 per cent of the enrollment. We are badly in need of an additional building and we hope to have one before another term begins.

An entertainment and oyster supper will be given at the school house on the evening of December 22, 1905, for the benefit of our school. All are cordially invited to attend.

Wind Storm Damages Crops.

Los Angeles, Cal., Dec. 13.—A severe desert wind-storm that in localities approached the magnitude of a hurricane visited southern California yesterday. Reports from various sections around Los Angeles tell of a gale lasting almost throughout the day and in places doing considerable damage. The chief injury was to the orange and olive crops.

TUESDAY NIGHT'S FIRE

Quick Response of the Department Saved Valuable Property.

An alarm of fire was turned in from Box 6 at 7:35 o'clock Tuesday night which summoned the department to the home of Dr. J. W. McClung, corner North Oak avenue and East Orange street. The department responded with its usual promptness, being out of the house upon the second sound of the gong, which probably prevented a serious loss, as the fire would have secured a good headway in a few more moments. The origin was supposed to be from a defective flue. The fire started in a room on the second floor. The damage will not exceed $25.

No water was turned on, the flames having been extinguished by the chemical apparatus.

Notwithstanding that the department made excellent time, some confusion was caused in the turning in of the alarm from a box five blocks away from the scene of the fire. Chief O'Neill requests The Sun to suggest that in future, when the party cannot turn in the nearest alarm for any reason, the proper course to pursue will be to telephone the central fire station.

COUNTY JUDGE'S COURT.

Will Williams, Arraigned for Embezzlement, Was Discharged.

Monday for the first time in several weeks, or since the convening of the circuit court, His Honor County Judge Mason had a case for trial, and this resulted in the discharge of the defendant, William Williams, who was arrested and arraigned upon a charge of embezzlement.

The complainant in this case was one Leev Wood. It appeared that Wood and the defendant had planted a crop of cotton together near Alachua, and Wood alleged that Williams had harvested and marketed the staple, retaining all the proceeds himself and refusing to turn over to the complainant his share.

After hearing the evidence in the preliminary, Judge Mason decided that there was not sufficient proof to warrant holding the defendant, and he was released.

The parties interested being well known colored people, the trial attracted a large number of people of their race from the Alachua section.

Attorney Benj. T. Ellis represented the prosecution, while Attorney J. M. Rivers appeared for the defense.

McINTOSH MINUTES.

Death of One of the Oldest Residents. Personal and Church Matters.

McIntosh, December 11.—J. F. Pettyes, one of McIntosh's oldest residents, died here Friday evening at 7 o'clock and was buried yesterday at the McIntosh cemetery. The funeral was preached at the Christian church by Rev. Sam J. White. Mr. Pettyes had been an invalid for many years and was a great sufferer from injuries received thirty or more years ago by being crushed between two saw logs. Being an excellent citizen he will be missed in the community by his many friends here.

W. M. Gist and his wife and Mrs. J. A. Flewell and Miss Alice Miggs have returned from Ocala, where they have been attending the Methodist conference.

The Presbyterians gave an oyster supper Friday night for the benefit of the church and it was well attended by everybody and netted beyond their expectations.

GROWING AND HEALTHY.

And still we are growing. You can look about the city of Gainesville in many directions and see piles of lumber and brick that are on the ground awaiting the carpenter and bricklayer to fashion them into residences. Notwithstanding the busy summer just past, there being a hundred or more residences erected, there seems to be a lack of accommodations for those that are here, and those who contemplate locating in our beautiful city.

And when we say "beautiful city" we mean every word of it, and it is beautiful in more senses than many who are residents actually realize.

The beauty of the homes here to be found is noticeable. They are very numerous, and it seems that in many instances the people vie with each other in the construction of these homes. And they are not only to be admired for their beautiful outside appearance, but many of them have on the interior all the comforts and conveniences you will find in any home in the land.

But one other fact that makes our city beautiful to those who have not been able to entirely enjoy the pleasures of this life, is its health. Many people who have arisen from beds of sickness, where they have been administered to by friends in the hope that they might recover, have come to Gainesville almost literally on their beds, and in a short time thrown their medicines to the dogs, arisen from their beds and have been restored to health through the healing influence of our excellent climate and pure waters, which many declare have remarkable restorative properties.

These facts sound like fancy tales and many will say it is only a little gush, but we have the documents to prove the health part of our story as well as the residences. If any desire proof it can be furnished.

Yet there are those who are so credulous as to say that these statements are only proven in a few instances in regard to health, yet we have many who are now residents of Florida whose names would be on tombstones but for the health-giving climate that here abounds.

If you doubt the statements come to the land of health, sunshine and prosperity and see for yourself.

NOTED MINERAL SPRING.

Among the many attractions for the afflicted as well as those who would keep their health in the best condition, to be found in Alachua county, is the mineral spring near Grove Park. The reason the curative properties of this spring have not come more forcibly before the people is the fact that the title to the land on which it is located has been in dispute.

Recently, however, it has come into [illegible] possession of Capt. J. L. Brown and [illegible] effort will be made to make im[illegible] Melrose [illegible] ments and erect a sanitarium so [illegible] Ocala—[illegible] ed may be treated. [illegible] ring is nestled have tested the water declare [illegible] could be made a cure for stomach and kidney t[illegible] People who and many have found relief [illegible] to be drinking the water.

Captain Brown has his residence on the high rolling lands of this section, and he has lots platted out for a town site, which he has named Magnesia Springs, being a lovely location for the erection of a sanitarium, boarding houses and a hotel.

In speaking of the Magnesia Spring Captain Brown says that in his twenty odd years' of residence there he has not had a case of malaria, and that this section of Alachua county appears to be clear of that malady. He says that in 1881 he first visited Florida for his health and stopped at Gainesville, where he met Col. Fen Taylor, who directed him to Magnesia Springs, which water cured him of indigestion and all malarial troubles that he brought with him from Indiana.

Since that time hundreds of people have tested the efficacy of these waters, which have been drank by them with wonderful results, and with facilities for bathing and accommodations for the people who would go there, there is no doubt of the success of such a resort.

There is good fishing near at hand, the invigorating pine forests would add to the attractiveness of the spot, and there would be no doubt of the fame of Magnesia Springs as a resort.

RISING PRICE OF COTTON.

Henry Irving Dodge, in Public Opinion of December 9, says that Europe will bear the burden of the rising price of cotton, and that here there is little to cause us worry. "It is said that the welfare of the world lurks in a cotton seed," he says. "Truly, the potency of this tiny thing is incalculable. For a long time resourceful minds have devoted themselves to multiplying its usefulness, with the result that today it enters basically into an incredible number of our industries, and through their ramifications has become the most active factor in our commerce. Not alone in new ways, but in new fields, does this heaven-sent staple bless mankind. The distinguished Henry W. Grady said: 'I believe that every missionary of the gospel, as he penetrates the wilds of Africa or the islands of the sea, is an advance agent for Southern cotton.' What a field, then, did Mr. Grady's words unfold, since only two-thirds of the human race have ever seen cotton! Practically the whole civilized world is looking to America for its supply of the raw staple.

"Clearly, then, our planters hold the key to the situation at present. Logically, higher prices will impel increasing planting and crops. But cotton requires the soil, climate and population peculiar to our 'belt,' and this has a physical limit. Unfortunately, when it ceases to expand it cannot go skyward like our New York City property, therefore—prices must. Evidently the planter's worst days are behind him. He need not think or talk any more nonsense about burning his [illegible] or restricting his plant. The [illegible] that demand has recently [illegible] has obviated all that."

The bi[illegible] post is o[illegible] that [illegible] fight if [illegible] ever get[illegible] tee. [illegible] are imm[illegible] the creation of a parcel [illegible] rayed [illegible] for and ag[illegible] will cause a severe case [illegible] do, the United [illegible] out of the committ[illegible] only [illegible] of the great civili[illegible] interests ar[illegible] that [illegible] not a parcel post and [illegible] it. As the Uni[illegible] States has a convention [illegible] is the cor[illegible] with some foreign countries. [illegible] ers in[illegible] see, Mexico and Great Britain [illegible] on the a [illegible] cel post that carried good[illegible] to New Y[illegible], though we have no reciprocal arr[illegible] ement. The undertaking would [illegible] mean a great additional expense to [illegible] postoffice department, but it would work more or less of a revolution in do[illegible] mestic trade and it will be pushed by the big stores in the big towns and fought by the small retailers all over the country, for it tends to encourage the mail order business at the expense of the small store keeper.

HE LOVES US.

Brother John Caldwell of The Jasper News, who has a fixed habit of expressing decided opinions in vigorous English of unmistakable meaning, says that it is all a mistake to suppose that he is "sour, cross or ill-natured" and he "declares on his sacred honor that there is not a newspaper man or woman in the world against whom he entertains the least malice, grudge or ill-will." This is the right spirit in which an editor should do his work and only in this spirit can he do it with the highest effectiveness. Hereafter when the fur flies we shall understand that Bro. Caldwell chastens us because he loves us, and while he may hate our sentiments he wouldn't hurt us for the world.—Live Oak Daily Democrat.

Governor N. B. Broward on last Saturday night removed J. W. Perkins from the office of county solicitor of Volusia county, because he had neglected his duty in prosecuting certain violators of the law. For some time past efforts, it is alleged, had been made to get Mr. Perkins to file information against certain violators of the election law in Orange City, which he declined to do. Recently the grand jury of Volusia county found indictments against those charged with these violations, and this was considered a rebuke to the county solicitor, as the grand jury does not take action in such matters in counties where there is a criminal court of record unless the solicitor fails to do his duty and file information. J. Hall Brumsey has been appointed to fill the office.

...SON AND CHUBB WILL RETAIN JOBS

Will be Reappointed as Register and Receiver of Land Office.

THE ORGANIZATION WON OUT

Every Recommendation of the Organized Republican Party Received Recognition and Appointment, Which Was a Big Victory for the Party.

A telegram received in this city yesterday by Hon. W. G. Robinson, register of the United States land office from Hon. Henry S. Chubb, receiver of the same office and chairman of the Florida State Central Republican Committee, announces that all endorsements of the Republican organization of the State have met with favor with the President, and in each instance those endorsements have been designated as the regular nominees of the party for federal positions in Florida. They comprise Hon. M. B. MacFarlane, collector of Customs for the District of ...a; Geo. W. Allen, for the Dist... Key West; John E. Bullman... District of Pensacola and Tip... ren, for the District of Apalachi... John M. Cheney to be United States Attorney for the Southern District of Florida, and John F. ... to be United Stated Marshal for the Southern District of Florida.

Col. Chubb concludes his telegram with the announcement that the names of Walter G. Robinson and Henry S. Chubb for register and receiver of the United States land office at Gainesville, respectively, would be sent by the President to the Senate for confirmation at once.

Gols. Robinson and Chubb and J. N. Coombs of Apalachicola are the recognised leaders of the Republican party in Florida, and wield a great and strong influence with the department at Washington, as has been demonstrated on several occasions. The officials of the land office are gentlemen of honesty, fairness and integrity, and the people of the State, regardless of political affiliation, are perfectly satisfied with their management of the affairs of the office, and will be glad to hear of their re-appointment. They have hundreds of recommendations from leading Democrats of the State.

LETTER FROM MR. HOLLEY.

Sends Congratulations to The Sun and Greeting to Gainesville Friends.

Augusta, Ga , Dec. 10, 1905.

Editor Gainesville Sun: Allow me to congratulate you on the great success of your Industrial Edition. It was a gem and shows well the progress and push of the proprietors of The Sun. Gainesville is growing. From every copy of The Sun I see that some new improvements are being made or contemplated. Many of the pictures in The Industrial Edition are familiar and call up pleasant memories of the past.

We are getting on nicely in our new field of labor. Everything here is on the up-grade. Our church is working as it never did in its history. Since we came to this place we have put on foot a move by which we will be able to build and pay for our new church in short order. We have about five hundred members, and a great number of them are giving the tenth of their income to the expenses of the church and to the new building. This will bring into the church about three thousand dollars over and above the expenses of the church. With the amount that we can raise elsewhere we will build in the next year, or at latest within eighteen months.

Augusta, too, is on a boom, more than $42,000 having been subscribed for the Greater Augusta, and a chamber of commerce is being organized. Almost everybody in the city is into the move. New industries are coming this way. Recently a sixth mill has been established. Other new cotton mills are in contemplation of erection. We now have two large tourist hotels—the Hampton Terrace and the Bon Air—both of which are filled during the tourist season. Plans are on foot for another hotel to cost about $300,000. Never in the history of this city has the future looked so bright. Recently the city floated about a half million dollars worth of city bonds with which to retire bonds at a higher rate. The entire amount was taken by citizens of the city.

The latest that we have is that the city electric railroad company has sold out to a company in Columbia, S. C., and that soon we are to have an electric road from here to that city. Already there is an electric road from here to Aikin. This road is to be extended to Columbia.

If your people are not learning progress fast enough come this way.

Thanking you for sending a copy of The Industrial Edition, I am

Yours respectfully,

J. B. Holley.

Sheriff Rickerson and Deputy Sheriff Nobles secretly hied themselves away to O'Brien Saturday evening late, says The Live Oak Democrat, and in less than an hour after their arrival raided a gambling den and captured Frank Wallace, C. L. Stevens, Doc Inman, Will Rees, Alex Zanders, W. L. Whitfield and Joe Allen, all colored. Monday Justice W. F. Turmond fined the whole gang $15 each, and the county has $105 more in the treasury.

CUBAN MINISTER TO THE U. Recommends Pe-ru-na.

Senor Quesada, Cuban Minister to the United States.

Senor Quesada, Cuban Minister to the United States, is an orator born. In an article in The Outlook for July, 1899, by George Kennan, who heard Quesada speak at the Esteban Theater, Mantanzas, Cuba, he said: "I have seen many audiences under the spell of eloquent speech and in the grip of strong emotional excitement; but I have rarely witnessed such a scene as at the close of Quesada's eulogy upon the dead patriot, Marti." In a letter to The Peruna Medicine Company, written from Washington, D. C., Senor Quesada says:

"Peruna I can recommend as a very good medicine. It is an excellent strengthening tonic, and it is also an efficacious cure for the almost universal complaint of catarrh."—Gonzalo De Quesada.

Congressman J. H. Bankhead, of Alabama, one of the most influential members of the House of Representatives, in a letter written from Washington, D. C., gives his endorsement to the great catarrh remedy, Peruna, in the following words:

"Your Peruna is one of the best medicines I ever tried, and no family should be without your remarkable remedy. As a tonic and catarrh cure I know of nothing better."—J. H. Bankhead.

There is but a single medicine which is a radical specific for catarrh. It is Peruna, which has stood a half century test and cured thousands of cases.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O. All correspondence strictly confidential.

Well Known Musical Instructor Dead.

San Francisco, Dec. 13.—Henry Holmes, formerly musical instructor to Queen Alexandra, of England, and for the past 17 years a resident of San Francisco, died at his home in this city on Saturday last. He was born in London in 1839. At the opening of the Royal college of music in London he was appointed professor of the violin. His contributions to the literature of music include many excellent symphonies, cantatas and solos, as well as quartets and quintets for stringed instruments.

HIGH SPRINGS NOTES.

Religious Meetings Closed—Municipal Election—Other News.

High Springs, Dec. 13.—Rev. M. H. Outland, assisted by Rev. Culpepper, has just closed a very successful revival at the Methodist church.

The municipal election was quietly pulled off here last Tuesday. There was but one ticket out, therefore everything passed off quietly. The new administration promises to "make it hot" for the blind tigers.

There is but little Christmas thus far in sight in High Springs as yet. Every indication points to a dull time on the question of boose.

Owing to his failing health Mr. Secretary of The Hornet, has not issued a paper for another year. He explains leaving in a few days for Hot Springs, Ark., the hope of regaining health restored.

Rev. Allen, the newly called pastor, has resigned the pastorate of the church. The election has been published.

UDDEN DEATH AT WALDO.

... Merrill Passed Away, After Having Arrived From Tampa.

...do, December 13.—The town was ... at about 10 o'clock Tuesday ... it was announced that Mr. W. E. ... was in a dying condition. He ... in Waldo from Tampa on the ... o'clock train and walked to his home. His wife asked him if he would have breakfast and he replied that as he had been on the road all night he would go to sleep. In about two hours his wife heard him groaning and went to his room and found him unconscious, in which condition he remained until 5 p. m., when he died.

Dr. Hodges of Gainesville was called, but Mr. Merril was too far gone.

He was an employe of the Seaboard and was considered one of the best carpenters on the road.

He is survived by a wife and two children. The people extend condolence to the bereaved family.

The funeral was held Wednesday afternoon.

FEDERAL CONTROL OVER INSURANCE

Novel Method Proposed in Bill Introduced.

PUBLICITY IS THING REQUIRED

Authorizes Department Commerce and Labor to Require Full Statements From Insurance Companies Doing Business in Jurisdiction.

Washington, Dec. 12.—A novel method of seeking federal control over insurance is proposed in a bill introduced today by Representative Fred Landis of Indiana. The bill cites that congress has exclusive jurisdiction over the District of Columbia, the territories and insular possession of the United States, in consequence of which authority is given the department of commerce and labor to require full statements from all insurance companies doing business within such jurisdiction. He states that publicity is the one thing required and that no insurance company can afford to quit.

Legislative Lively Tilt in the House.

A lively tilt occurred in the house before adjournment between Latimer of Florida and the minority leader Mr. Williams, regarding committee assignments. Mr. Lamar sought to settle the matter, but Mr. Williams objected in the interest of Democratic harmony, effectiveness and good will. He was at once challenged to call a Democratic caucus for tomorrow, but declined to commit himself on the ground that the house was no place for Democrats to wash thier linen for the amusement of Republicans. Mr. Lamar was taken off the committee on interstate and foreign commerce.

Senate Receives Emergency Bill.

When the senate convened today a message was received from the house transmitting the emergency bill appropriating $13,000,000 to aid in the construction of the Panama canal.

THINK THEY HAVE BIG CATCH.

Police Confident They Have Broken Up Counterfeit Gang.

Los Angeles, Cal., Dec. 12.—In the arrest yesterday of Frank Weller, alias Wilder, and Joseph Castro, alias Lawrence, by United States Secret Service Agent Cronin and officers from the Central Police station, it is believed that one of the smoothest gangs of counterfeiters that has operated on the Pacific coast for years was broken up. With the prisoners a quantity of paraphernalia was confiscated and a sufficient evidence is said to be possessed by the officers to permit of a prosecution of the charge. The men are alleged to have been operating in Los Angeles, San Francisco, Oakland and a number of California cities for several months past, flooding the coast with bogus bills. They have been under surveillance for some time.

The raising of $2 bills to the denomination of $5 and $10 is said to have been the principal occupation of the counterfeiters.

Torture of a Preacher.

The story of the torture of Rev. O. D. Moore, pastor of the Baptist church of Harperaville, N. Y., will interest you. He says: "I suffered agonies, because of a persistent cough, resulting from the grip. I had to sleep sitting up in bed. I tried many remedies without relief until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which entirely cured my cough and saved me from consumption." A grand cure for diseased conditions of throat and lungs. At all druggists; price 50c and $1.00; guaranteed. Trial bottles free.

Wants Sentence Changed So He May Die With Relatives.

Valdosta, Ga., Dec. 12.—Leonard Rawlings, who was recently sentenced by Judge Mitchell to the penitentiary for life for his complicity in the murder of the Carter children, was Sunday carried to a state convict camp at Babcock, Ga.

The parting between the young man and his mother and sister at the railway station was very affecting. Young Rawlings has all along maintained that he would rather be hanged than to serve a life sentence and requested one of his attorneys to try and have his sentence changed so that he might be executed with his father and brothers.

Coughing Spell Caused Death.

"Harry Duckwell, aged [illegible], choked to death early yesterday morning at his home in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a severe coughing spell which continued for some time. His wife sent for a physician, but before he could arrive another coughing spell came on and Duckwell died from suffocation.—St. Louis Globe Democrat, December 1st, 1901." Ballard's Horehound Syrup would have saved him. 25c, 50c and $1. Sold by W. M. Johnson.

Investigating Home Life.

New York, Dec. 12.—An investigation of the Home Life Insurance company of New York was taken up by the legislative insurance investigating committee today. The first witness called was George E. Ide, president of that company. Mr. Ide said in making investments his company gives no commissions to brokers, but he thought some of the officials of his company may have received commissions on their own policies. He said his company is paying a pension of $1,000 a year to a clerk who was employed since the foundation of the company and is now unable to work.

MAY NOT ACCEPT BUILDING.

Rumored That Athens Federal Structure Must Be Changed.

Athens, Ga., Dec. 16.—There is some talk of the government refusing to accept the federal building in this city from the contractors unless certain changes are made by them.

The trouble seems to be over the terra cotta that is in the building, which the government inspector refuses to accept and which the contractors claim to be up to the specifications.

It is likely that the dispute will go into the regular channels for such controversies, and that it will be some time before the building is in actual use.

Attempted Suicide.

New York, Dec. 16.—A young man giving the name of Felix Frank, 30 years old, and his occupation as that of a banker of the City of Mexico, was taken from a Broadway restaurant today, where he had attempted suicide by shooting. He was taken to the New York hospital, where he is in a critical condition.
